Project Title

Cooking Club: The Social Recipe Network

Project Description

Cooking Club: The Social Recipe Network is a platform designed to bring together food enthusiasts from around the world. It allows users to share their favourite recipes, discover new dishes, and connect with others who have a passion for cooking. The project aims to create a dynamic and interactive community where users can exchange cooking tips, rate recipes, and participate in themed cooking challenges. With an intuitive interface and a variety of categorization options, Cooking Club ensures that every culinary enthusiast finds inspiration and enjoyment in the world of cooking.

Code of Conduct

Introduction

We, the members of Challenge Team, are committed to maintaining a respectful, inclusive, and productive working environment. This Code of Conduct outlines our expectations for participating in the project and how we will collaborate as a team.

Team Expectations

- Respect for All

Treat all team members with kindness, regardless of background, experience, or opinions.

- Clear Communication

Use GitHub Issues, Slack/Discord, or scheduled meetings to discuss tasks and share updates.

- Accountability

Each member is responsible for completing their assigned tasks on time.

- Frequent Commits

Push changes to GitHub regularly to maintain a smooth workflow.

- Help & Ask for Help

If you're stuck, ask for help early to avoid delays. Likewise, offer assistance to teammates when you can.

Collaboration Guidelines

- GitHub Workflow

Follow the GitFlow methodology (master, develop, release branches) to keep a clean history of changes.

- Code Review

Before merging, at least one team member must review and approve the proposed changes.

- Documentation

Ensure that code is well-documented for easy maintenance and handover.

Conflict Resolution

If disagreements arise:

- Discuss the issue within the team in a professional and respectful manner.
- If the conflict remains unresolved, escalate it to the lecturer or project supervisor.

Consequences of Violating the Code of Conduct

Repeated violations may result in a formal discussion with the lecturer and possible removal from certain project tasks.

Personas

Name: Angel Gomes

Relevant Quote: "At the intersection of passion and perseverance, we find the path to mastery."

Demographics

Gender: Male

Age: 40

Location: London UK

Title: Mr.

Education: Year 2 Computer Science

Goals

- Professional Integration of Technology
- Continuous Learning and Skill Development
- Professional growth.

Background Description

Since my childhood in Venezuela, I've been fascinated by the world of technology and computing. Despite my current job as a security guard keeping me busy, my passion for technology has never waned. I am an enthusiast in the field of computing, always eager to stay updated on the latest trends and developments in the digital world.

Looking ahead, I aspire to merge my passion for technology with my professional career, exploring opportunities to contribute directly to the digital world. My goal is to continue growing both personally and professionally, leveraging each experience to achieve new milestones.

Motivations

- Passion for Technology.
- My Family.
- Improve my quality of life.
- Financial independence.

Frustrations

- Working full time and studying is a challenge.
- Language as a barrier to express my ideas clearly.
- I would like to have more free time for my studies.

Previous Experience:

- No experience in the technology area in this country.
- In Venezuela I worked in a financial entity.
- In Venezuela I worked in the pharmacy area.

Expectations:

- Development of Innovative Applications.
- handling of different programming languages.
- to be able to integrate effectively into the work environment.

PRAKASH BOHARA

I enjoy exchanging varieties of recipes

Educated

Friendly

Ambitious

Committed

Goals

- ✓ **Share & Explore Recipes** – Wants to share traditional family recipes and learn new ones from different cultures.
- ✓ **Cultural Connection** – Interested in understanding the cultural significance behind different dishes.
- ✓ **Cooking Confidence** – Hopes to improve his cooking skills by trying authentic recipes with proper guidance.
- ✓ **Community Engagement** – Seeks an inclusive platform where students interact and exchange ideas beyond just food.

Age: 21

University: Roehampton University

Major: Computer Science

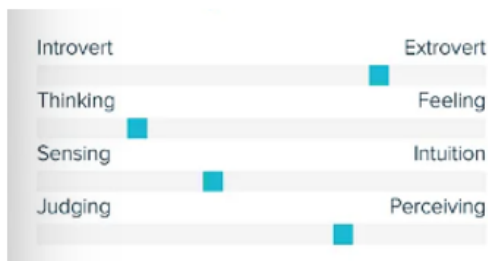

Background: white-Asian passionate about cultural diversity and food

Tech Comfort Level: Moderate (familiar with social media, willing to explore new platforms)

Frustrations

- ✗ **Ingredient Accessibility** – Some traditional ingredients are hard to find in the local area.
- ✗ **Authenticity Concerns** – Prefers traditional recipes over Westernized versions.
- ✗ **Time Constraints** – Juggling university life makes it hard to cook elaborate meals.

Personality

Bio

Mr. Bohara is a passionate home cook and a student at the University of Roehampton. He loves learning and sharing recipes from different cultures, believing that food is more than just nourishment—it's a gateway to understanding diverse traditions, histories, and ways of life.

For him, exchanging recipes is not just about cooking; it's about storytelling and preserving cultural heritage. He sees food as a powerful way to build connections among people from different religious, cultural, and regional backgrounds. Through this platform, he hopes to foster a sense of community, where students can share their culinary traditions, discover new flavors, and celebrate diversity through the universal language of food.

Ethical Issues

1. **Data Privacy & Security** – Ensure that user data, including personal information and recipe contributions, is securely stored and never shared without explicit consent. Implement encryption and access control measures to safeguard user privacy.
2. **Content Moderation** – Establish clear guidelines and automated monitoring systems to prevent the sharing of harmful, offensive, or misleading content. Encourage community reporting mechanisms to maintain a safe and respectful environment.
3. **Intellectual Property Rights** – Uphold copyright laws by ensuring that all user-submitted recipes are properly credited to their creators. Implement a system to detect and manage potential plagiarism or unauthorized content use.
4. **Inclusivity & Accessibility** – Design the platform to be inclusive and accessible to individuals with disabilities, following best practices for web accessibility (e.g., WCAG standards). Provide language options and adaptive interfaces to enhance user experience.
5. **Cybersecurity & Risk Prevention** – Implement security protocols to mitigate risks such as data breaches, fake accounts, phishing attacks, and other malicious activities that could compromise user safety and trust.
6. **Community Guidelines & Ethical Conduct** – Establish and enforce ethical guidelines to foster respectful interactions among users. Address issues such as harassment, spam, misinformation, and unethical behavior through clear policies and reporting mechanisms.

Meeting Minutes

Date and Time	Sunday 31/01/2025 at 18:00 Thursday 6/02/2025 at 17:00
Project Name	Cooking Club: The Social Recipe Network
Meeting Goal	<ul style="list-style-type: none">• Agree group name• Choose project• Assignment of tasks
Facilitator	Angel Gomes
Note taker	Selena Rodriguez Pons
Attendees	Angel Gomes Prakash Bohara Selena Rodríguez Pons
Roundtable Updates (each	

<p>group member to contribute)</p>	<p>1. Angel's Contribution & Role:</p> <p>Angel worked on refining the project description, managing the task board link, and setting up the GitHub repository for collaboration. He also contributed to creating the personas along with the rest of the group.</p> <p>2. Selena's Contribution & Role:</p> <p>Selena was responsible for maintaining the meeting records and identifying key ethical issues related to the project. She also participated in creating the personas along with the group.</p> <p>3. Prakash's Contribution & Role:</p> <p>Prakash focused on drafting and finalizing the Code of Conduct, ensuring it aligns with ethical considerations. He also collaborated with the team on developing the personas.</p>
<p>Discussion points</p>	<p>Meeting Updates:</p> <p>Meeting on 31/01</p> <p>Topics Discussed:</p> <ul style="list-style-type: none"> • Confirmed the group members: Selena, Angel, and Prakash. • Refined the project description, focusing on a social recipe-sharing network where users can interact, share, and explore new recipes. • Drafted the initial Code of Conduct, emphasizing respectful interaction and originality in content. • Created Personas for each group member. • Identified key ethical issues, including privacy concerns and content moderation. • Agreed to track progress via a task board and maintain records of all meetings.

	<p>Meeting on 06/02</p> <p>Topics Discussed:</p> <ul style="list-style-type: none"> • Finalized the Code of Conduct, ensuring it aligns with community guidelines and ethical concerns. • Reviewed and refined Personas for group members. • Discussed GitHub repository structure for project collaboration. • Updated the task board, assigning tasks for the next phase of development. • Reviewed ethical concerns again, ensuring proper measures are in place to address them. <p>Let me know if you need any more tweaks!</p>
<p>Actions (list tasks and assign a group member)</p>	<p>Your group members and group name: Selena, Angel, Prakash</p> <p>Project description refined: Angel</p> <p>Code of Conduct: Prakash</p> <p>At least two 'Personas': Angel, Prakash</p> <p>Ethical issues identified: Selena</p> <p>Meeting records completed: Selena</p> <p>Task board link: Angel</p> <p>Github link: Angel</p>
